# Aviation

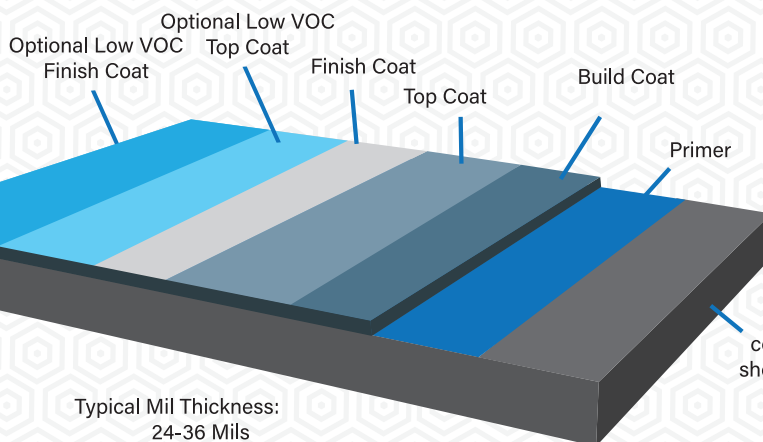

The TW Hicks hangar floor system is a monolithic solid color flooring system designed specifically for military, corporate, and maintenance aviation hangars. This system offers excellent chemical resistance against typical aviation fluids such as Jet-A and Skydrol and is specifically designed for aviation hangars.

## Where To Use

- Aircraft maintenance hangars
- Corporate hangars
- Military hangars
- Chemical storage areas

## Advantages

- Resistant to chemical attack
- Stands up to heavy wear and abuse
- Provides excellent light reflection
- Enables the surface to be easily cleaned and maintained
- Anti-skid textures can be easily added for safety
- Lead in lines and walkways can be easily added

Mechanically prepare the concrete substrate by means of shot blasting or diamond grinding
